DETAILED ACTION

Rejection Repeated

1. The 35 U.S.C. 103(a) rejection of claims 2 and 4 over Nakano et al. in view of Taksaski has been repeated for the reasons previously stated in office action 3/14/2005.

Response to Arguments

2. Applicant's arguments filed 6/14/2005 have been fully considered but they are not persuasive.

In response to applicant's argument that neither Nakano nor Takashi teach or suggest that the chamfered part of the base wafer is mirror surface, Applicant claiming that a chamfered part of the base wafer is mirror surface is a product by process limitation. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process. *In re Thorpe*, 227 USPQ 964, 966 (Fed. Cir. 1985). The final product of applicant's invention is a mirrored surface in which Nakano et al. discloses a bonded wafer with a mirror surface (abstract).

Applicant argues that Takashi discloses that the mirror polish only the main surfaces of the wafer and not the chamfered part. First of all, applicant did not claim what part of the wafer was chamfered, thus any part of the wafer could have been chamfered then mirror polished. Secondly, applicant argues that neither Nakano nor Takashi have a mirror polished chamfered part, however if a chamfered part is mirror

polished the final product would be a mirror polished surface regardless of the type of surface the wafer previously had. Therefore, applicant is technically claiming a chamfered part of the wafer that is subjected to mirror polishing and is now a mirror surface which is a product by process limitation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
